Enotourism

It is the tourism of tasting, consumption, or purchase of wine, many times near or in the source. Instead of other types of tourism that are frequently passive, enotourism can involve visits to wineries, taste wines, vineyard walks, or participating in the harvest.

Nowadays, wine has become an important beverage that is increasingly being consumed more frequently all over the world, and its production and marketing has received increasing attention from consumers, specialists, and producers.

Objectives of our Project

The main purpose of this project is to provide users with a well-planned enotourism portal, where they can also book tour guide deals for the best wine tour or wine tasting events on the list and get historical information about wine cultures. Also give people the ability to share wine events and tour guide offers on the website.

How the system helps users?

- ◆ Enable the consumer to visit the wineries where the wine is produced to learn the history of it and see how the wine is made
- ◆ Provide wine tasting & tours events for consumer
- ◆ Enable the consumer to find a wine tour guides on the website
- ◆ Enable the consumer to read the wine culture of listed countries and regions.
- ◆ Enable the winery and tour guide to create event for consumer

Relation of Users

Welcome to Enotourism

 Wine Taster <input checked="" type="checkbox"/>	 Winery <input type="checkbox"/>	 Wine Guide <input type="checkbox"/>
